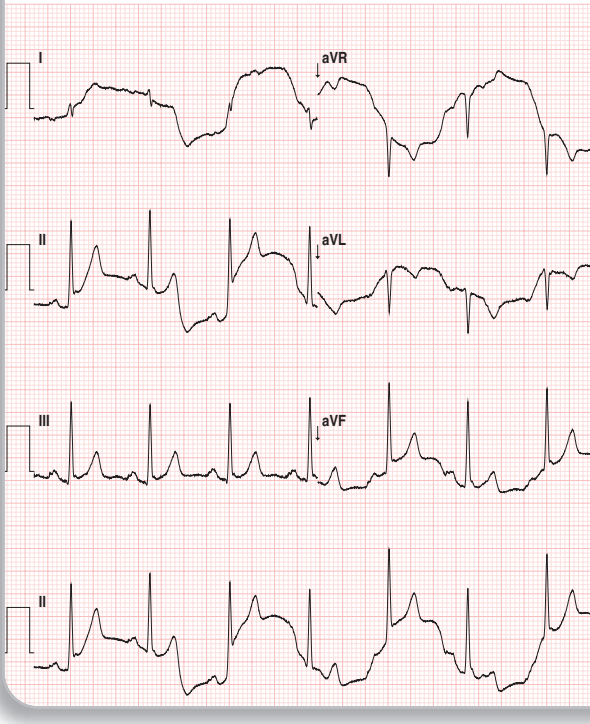
WHICH 10 SECONDS WOULD YOU CHOOSE?

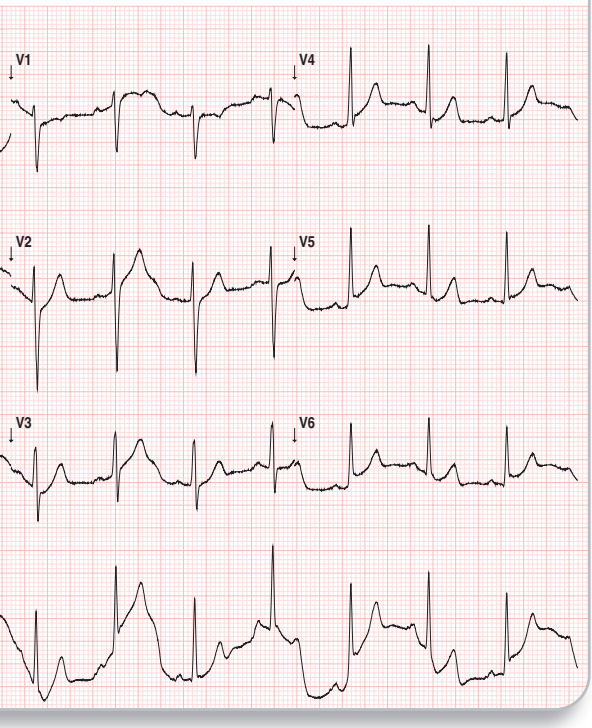
Mortara

The

last 10 s



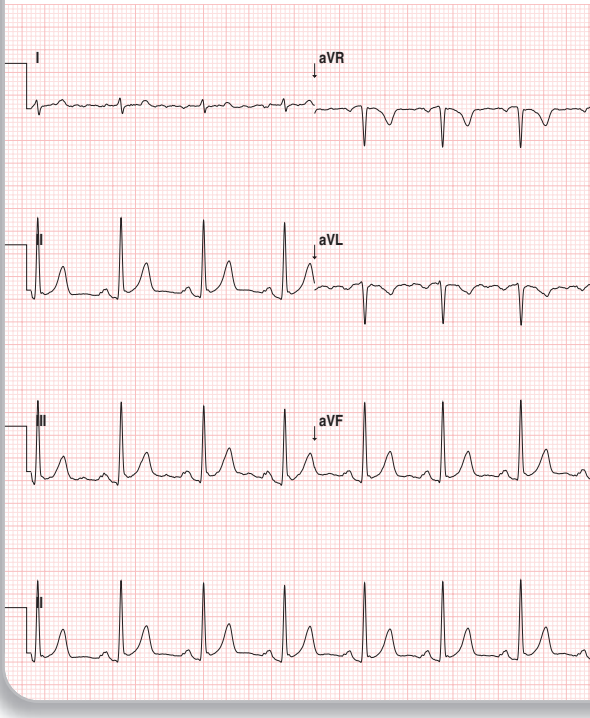
econds?



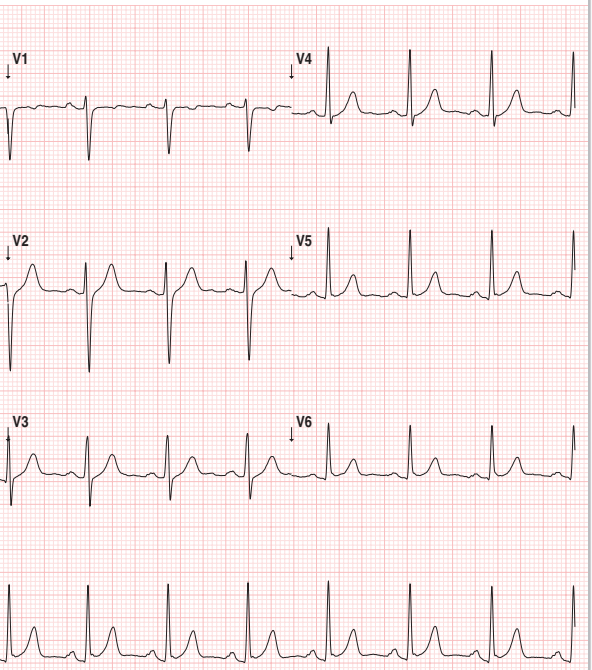
Mortara's Best 10 algorithm evaluates ECG noise to determine the best quality 10 seconds of data recorded by the ELI™ electrocardiograph. So, no matter when you press the ECG button, you get the best quality ECG for review - even if your patient moved in the last 10 seconds.

or the

BEST 10



seconds?



Fewer Repeat ECGs
Less Time Wasted
Better Quality Recordings

Mortara is committed to simplifying everyday ECG acquisition.
